Dual-Line

Double Action

Double-Role Telephone
Communication

Convenient 2-Line Operation with 3-Way Conference Calling

With Panasonic's 2.4 GHz Frequency Hopping Spread Spectrum (FHSS) technology, you're assured secure digital communication between the base unit and cordless handset with incredibly clarity and security without crosstalk. And now, with 2-Line capability, you can use the KX-TG2480BX as two separate telephones, enabling you to talk with a different party on each line and even set up a three-way conference call with two outside parties. Other outstanding features such as Caller ID*, Voice Enhancer and Hands-Free Speakerphone add maximum versatility to your telephone communications.

Outstanding Features with Superior Quality

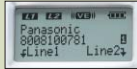

2-Line Operation with 3-way Conference Calling

Allows you to talk with a party on one line, dial a second party on the other line, and then conference both calls together. Convenient in homes or offices where two telephone lines are installed.

Caller ID Compatible* (FSK/DTMF Compatible)

The Multifunction 3-Line LCD displays the caller's number and name (service subscription required and stored in phonebook). GIGARANGE phone can retain up to 50 numbers in the Caller ID memory.

Digital Duplex Speakerphone (Handset)

Helps reduce the echo and drop-out effect found in regular speakerphones for a more natural-sounding conversation.

50-Station Phone Book

The handset can store up to 50 names and phone numbers in its phone book. You can make a call by selecting a name or number from the phone book.
