DCP-115C

4-in-1 Colour Flatbed Multi-Function Centre

Colour Printing | Colour Copying | Colour Scanning | PhotoCapture Centre™

Sleek Design & Function Ideal for the Home and Home Office

You've explored the world, captured the sights and now want to share your adventures through pictures. Brother's DCP-115C comes in handy as it's the all-in-one solution! Watch as your pictures come to life in vivid colours and high resolutions of up to 1,200 x 6,000dpi. You can also print borderless photos direct from different media cards for striking, true-to-life images.

Another useful feature is the ability to save and retrieve files via your media card, making this an additional and convenient data transfer tool. On top of that, you can take creativity into your own hands with the help of user friendly bundled software for easy creating, editing and sharing of albums. All that can be achieved right in the comfort of your own home.

Even in a home office scenario, it lives up to the mark with exceptional colour scanning and copying functions, making it an ideal work and leisure companion. Explore options to scan the image directly to a range of formats like PDF or TIFF, or scan to OCR where it can be saved as a text file for editing. You can also send out the scanned image as an email attachment to your friends with the option to scan to email. With so many nifty tools at your fingertips – Brother is always at your side, catering to all your digital lifestyle needs.

The Design Factor

Visually pleasing, its sleek, compact design was crafted by the renowned Japanese product architect Mr. Mitsuharu Hattori and his team. By enhancing the overall outlook with a matching body colour, a sleeker silhouette was created. Complementing this sleek exterior is the 4-in-1 capacity that offers colour printing, colour copying, colour scanning and PhotoCapture Centre™ capabilities. It's no wonder why home and office users alike are drawn to its appeal and numerous features.

Brother's revolutionary Capillary Tube Delivery Ink System directs ink from DCP-115C's four separate ink cartridges direct to the print head, allowing for a much lower profile machine. As a result, the manifold benefits include smoother, quieter operation and ink cartridges that are quicker and easier to replace. This is Brother's commitment to designing for your lifestyle.

Specifications

* Due to the restrictions of OS or applications, scanning at or above 19,200 x 19,200dpi may not support all sizes of documents or images

Brother strongly recommends the use of Genuine Brother consumable products only. Benefits include better quality prints, greater yields per consumable, protection of your machine from damages and achievement of optimum performance. As a precaution, please note that your machine warranty may not cover any damages arising from the use of non-genuine Brother consumables.

True-to-life borderless prints in vivid colour

Comprehensive, easy-to-use scanning feature

User-friendly and intuitive Control Panel

PhotoCapture Centre for direct photo printing from media cards

Separate ink cartridges for cost-effectiveness
